

# Locations, locations, locations

A guide to Coral Homes' display locations

# Welcome to cleverliving

BY CORAL HOMES

Experiencing Clever Living “in the flesh” at a Coral Homes display is the best way to see how our family centred approach really works.

By walking through a Clever Living display home you can fully appreciate the special features we build into every one of our homes.

Clever Living means every member of the family has their space – because every Coral home includes space where kids can burn energy and space where they can sleep it off. For parents there is space to watch the kids play and space to escape the noise!

It’s all part of the Coral Homes holistic approach to unified, harmonious family living. A lifestyle everyone loves!

Clever living by Coral Homes, sure it’s a better way of living, but when you think about how long we have been building quality family homes, it’s only natural we would develop an Ever Clever way of doing things.

Experience Clever Living up close and personal – find your nearest Coral Homes display today.

Clever Living by Coral Homes – Australia’s smartest family homes awaiting your family’s inspection now.
